

Current Status and Trends on Math Placement in Ohio: Guided Discussion

The Ohio Mathematics Initiative is pleased to host a guided discussion on math placement. The webinar will be an opportunity for faculty from around Ohio to share information on what is currently being done at their institutions, areas for improvement, changes since the pandemic, research items, multiple measures, etc.

Information gathered during the discussion may be used to inform the topics of future webinars related to math placement.

Who: Mathematics Faculty or Staff Interested in Math Placement

Come prepared to ask questions and share promising practices with colleagues from institutions across the state. Participants are encouraged to bring copies of their current placement guidelines, College Credit Plus guidelines, multiple measures definitions or practices, and applicable research.

When: Tuesday, June 7, 2022, from 1:00pm-3:00pm

Where:
